eat, and how you eat, and your stomach will take care of itself. But who takes care of such trivial things? That is why, someday, the majority of people have to take care of the stomach. When that day comes, there is no aid so effective in undoing the results of past care-lessness as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, and restores the organs of digestion and nutrition to a condition of healthy ac-tivity. It cures biliousness, heartburn, flatulence, indigestion, palpitation, diz-ziness, cold extremities, and a score of other ailments which are but the symptoms of disorder in the stomach and its

Col. Hilder says that the greatest and most profitable industry of the future in the Philippines will be that con nected with the marketing of magnifi cent timber that covers the islands. There are extensive groves of hard cabinet woods and other woods un-known to the commercial world. He has also made a collection of all the fibres of the country, among them the celebrated one from which Manila rope is made. This fibre, he says, is not hemp at all, but comes from a species of ba-nana peculiar to the Philippines.

Next to the hard woods these fibers will be of great commercial value.

ROMANCE OF A SONGSTRESS. Mme. Emma Nevada Finds a Sister She Thought Dead.

Chicago, May 17.—A special to the imes-Herald from Cleveland, Ohio,

Mme. Emma Nevada, the famous singer, is entertaining a sister whom she met for the first time in twenty-

eight years.

Woven in with the story of the meeting of the two sisters is a pretty romance of the fulfillment of a dying mother's request, a trust which Mme. Nevada discharged yesterday when she presented to her sister a diamond ring, which their mother had left in Mme. Nevada's charge with the injunction that it should be given to "Laura," the sister who had left home eight years before hie mother's death.

Mme. Nevada arrived in Cleveland Tuesday evening. Yesterday the sister,

BRITISH DOUBT THE STATEMENT London, May 17, 3:20 a. m .- The British relief column fought the Boers a Kraal Pan, thirty-two miles south o Mafeking, on Tuesday, according to a telegram received Wednesday at Lourenzo Marques from Molope, 100 miles north of Mafeking. This intelliger is accepted here with some reserve, be cause it is difficult to understand how the news could have been so quickly put on the wire from a place 132 miles from the scene of the engagement. A correspondent of the Morning Post, pre-

tured by the Boers at Kraal Pan. The British public is keeping expec tant of the announcement that Mafeking has been relieved. In army circles the opinion seems to prevail that this has already been accomplished, although two hours after midnight the war office asserted that news of the relief had not been received. The steadfast courage of his garrison has produced a deep impression, and the news of succor is awaited with more anxiety than has have been second to the state of the state o than has been felt regarding any other event of the war.

FIGHT AT ZAND RIVER. It seems that Gen. French's cavaly had one lively fight after crossing the Zand river. The Upington district is the locality where the guerilla tactics of the Boers are just now most in evidence.
